AES and VIBCA join to co-organise the 1st ceramic manufacturing exhibition from 30-31 August 2018 in Hanoi to embrace the surging industry demands of Vietnam’s domestic market for tiles, sanitary ware, tableware and heavy clay production.

Asian Exhibition Services (AES) Ltd., the leading independent exhibition network for the ceramic industry in Asia and organisers of the ASEAN Ceramics exhibition in Bangkok, AES (UK) Limited, the global partners of the event and the Vietnam Building Ceramic Association (VIBCA), Vietnam’s official industry organisation for the ceramic manufacturing industry have joined resources to co-organise the first international exhibition and conference for ceramic manufacturing with full industry support.

"Vietnam has become one of the most important single markets in Southeast Asia for ceramic manufacturing, it is currently expanding at rates of 10 to 15 % across the different sectors and required a substantial amount of machinery, technology and materials to service this rapid expansion. At the regional event in Bangkok, ASEAN Ceramics, we experienced a surge in interest for the Vietnam market and a significant rise in Vietnamese buyers to the event. In response to the market demands and in partnership with our colleagues at VIBCA we launched this market focused event in the even years between the ASEAN regional expo"

David Aitken
Managing Director, Asian Exhibition Services (AES) Ltd.

Vietnam’s economy is currently out performing most of its regional peers with GDP growth rates of 6.21%, FDI of over US$ 15 billion, the 4th highest in Asia, construction industry expansion of 10%, foreign visitors up 26%, 110,100 new business start-ups and exports up 8.6% to US$ 176 bn.

The ceramic industry in Vietnam is expanding rapidly with tile production capacity growing 15% to 630 million m2 in 2017 operating at 80-85% production and 85 % absorbed by growing domestic consumption. Sanitary ware production capacity is 25 million pieces with 25-30% for export. The key export markets for Vietnam are Japan, Taiwan, Thailand, Malaysia, Cambodia and Cuba.

EXHIBIT PROFILE:
raw materials, additives, powders, production materials, refractory materials, fring aids, kilns and equipment, machinery, heavy clay plant equipment, fine and refractory ceramic technology and machinery, laboratory & test equipment, research / consultancy / services
“The Vietnam Building Ceramic Association is very pleased to co-organise Vietnam Ceramics 2018, the inaugural ceramic manufacturing exhibition to be staged in Hanoi. We welcome and invite all international machinery, technology and material suppliers, distributors and industry stakeholders to exhibit in our first event to meet Vietnam's ceramic manufacturers of tiles, sanitary ware, tableware and heavy clay products”.

Mr. Dinh Quang Huy, Chairman, Vietnam Building Ceramic Association (VIBCA)

FULL INDUSTRY SUPPORT

Under the headline support of Co-Organisers VIBCA, the VIETNAM Ceramics 2018 exhibition has full industry support from throughout the related organisations in Vietnam and the region. VIBCA (Vietnam Building Ceramic Association) is a professional organization established under the Minister of the Organizing Committee Government. It has over 100 members from different economic sectors, including research institutions, investment consulting, manufacturing and mechanical engineering. VIBCA is a member of the Association of ASEAN Ceramics Industry (CICA) with close relationships with the regional and international global Ceramic Associations.

VIETNAM Ceramics 2018

The 1st Premier exhibition & conference of machinery, technology and materials for manufacturing tiles, sanitary ware, tableware & heavy clay products in Vietnam.

Cost of Participation
Choose the booth option that best suits your budget and objectives.
